Combination packaging for clinical waste 3291*

UN approved boxes for soft & dry medical waste

4G Safe®

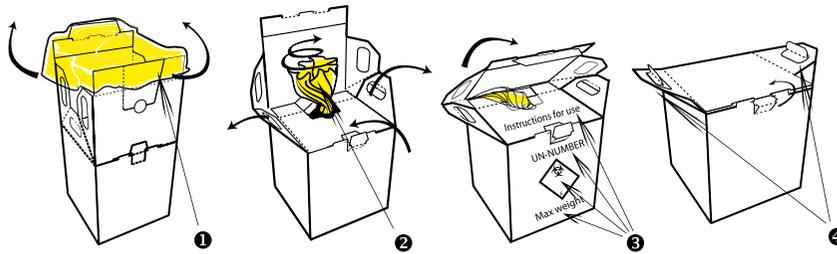

Packaging for infectious waste

4G Safe : A HIGH PERFORMANCE RANGE

Designed in strong kraft cardboard and coupled with a polyethylene bag (70 µ) as inner packaging, the 4G Safe boxes are perfectly suitable for soft and dry infectious waste.

The 4G packagings, which are approved for the carriage of dangerous goods by road in accordance with the ADR, enable a safe collection & disposal of clinical waste (UN No. 3291).

ADVANTAGES 4G Safe : SIMPLE & SAFE USE

INSTRUCTIONS FOR USE

- 1 Large flaps with protruding bag.
- 2 Permanent closure eased by an immediately available bond (patented system).
- 3 Delivered with markings and instructions for use.
- 4 External handles, triple thickness for secure handling to avoid any contact with the waste.
